STORIES OF OUR CLIENTS

RUZENKA: I lost my sight 9 years ago. I used to sit at home without a possibility to return to society. I started working in the sheltered workshop 6 years ago and since that time every month has brought me more experiences than those years which I had spent at home. I took part in sewing and weaving courses and got a working place perfectly equipped regarding my disability.

LUBOŠ: "My family used to assist me with every little thing. Since I have started visiting the day care centre, I have learnt how to do the washing, how to prepare simple meal, how to make coffee and much more. I have become more self-sufficient and assumed part of the housework".
